There is not one doubt that she will be a

Her love for life illuminates her classroom

Even given our dislike for homework, we see the value in her intentions.

We envision a great fulfilling life for her child,

Class Poem

From pre -school to graduation, our class is one of a kind
We have been through many problems, and still keep a peaceful
state of mind
We are a family, we strive together

We have gone through many changes, many victories This family will always help those in need And one thing is for sure, we will all succeed

Time is short, and the days are going fast
But the friendships of our class, will always last
We are brave, we are strong
We will always find where we belong

Many memories have been made, many days have been saved Each person will look out for one another It is something we share, something that most won't compare

We are all very outgoing, charismatic, and talented Our class will go far, and achieve great things And it is the story of our years, that we will always sing

Each one of us has gone through a challenging time
And each one of us has been that shoulder for a good cry
We are kind, and together we will rise
We are the best, and unlike all the rest

We are the class of 07, and we will never forget

Class Prophecy- 2007

There is a special day out of every year that tops the rest by far. It is the day of our high school reunion. This year the reunion is at Killington Resort and just about everyone is there. Travis Amsden comes up the drive in his huge 4 X 4 truck that is covered in mud from mudding. He is the manager of a huge successful truck dealership, but always finds time for the fun things in life, and yes he has his hacky-sack with him just in case. "Big-K-Unit" (Kayla Fitzgerald) follows close behind him with her four wheeler in the back of her camo colored truck. She had just gone hunting, and shot a beautiful eight point buck that she will bring into her shop to be mounted. Megan Loso was one of the first to arrive. She couldn't wait to see everyone again; she's been living it up. She was all about having fun, and still is! She couldn't wait to get the party started! Kayla Mumford and Katelyn Nickerson showed up soon after Megan, Kayla is working a great government job, and soon she will be an important executive at the U.N. Katelyn, who we were all surprised to see arrive early, married her sweetheart that she had in high school soon after she finished college. Then about ten minuets after the dynamic trio arrived, so did Bryan LaChance and Alyssa Ray. Bryan, despite having a very impressive soccer career in college, went on to play professional hockey. He is constantly on the news, as the MVP of almost all of his team's games. Alyssa has been working hard. Right after she graduated from college, Dartmouth College offered her a great job as a trainer for their soccer teams. Michael Chadwick went global with his great game design for people with wheel chairs. He actually designed a game for kids to play on their boards that attach to their wheelchairs so that the students could play without the teachers knowing! He always been the high tech one! Jordan Newth actually rode his bike into the hotel, just to show it off. It is the latest model that everyone wants! He is going to make millions off of his design. Even though he is a successful mountain bike designer, he still works part time in recreation. EJ Moser came in looking classy as usual. After she graduated form BYU she went on to Medical school and is now one of the top OB-GYN in the country and is currently in charge of the neo-natal care at Dartmouth Hitchcock Medical Hospital. After that, Heather MacIntyre arrived. She has her Master' degree in Zoology, and travels the world helping people save animals everywhere from poaching. And yes, she still loves horses! Next the music started to play, and when we all looked up, we were so happy to see Adam up on the stage, singing and playing his own songs. We could all sing along because many have gone to number one on the country charts. Adam isn't the only musician who made it big. You may remember that slightly wild Evan! He really made it big, He and his band have played around the world at punk shows everywhere. Fame has not changed him, he finds time for his fans. Then Mia Genovesi and Ben Czarnecki arrive. Mia looks simply stunning. You can tell she owns a very successful cosmetology business. She and Ben (who is nicknamed the "barber to the stars") often consult on the best looks for celebreties before they glide down the red carpet at award ceremonies. Katie Ponto and Aaron Gould also came to the reunion in Mia's brand new BMW. This one has no bumps, scratches, or dents in it! Those five have stayed in touch, and are still the best of friends. They wouldn't let anything come between their friendships! They are all successful too. Katie became an exemplary teacher. She just returned from touring the country after being named National Teacher of the Year. Aaron Gould shocked us all when he came in with his FBI badge. He is now living in Washington D. C. and has the President on speed dial! He was present when the President gave Katie her award. Kristie Dunchus is next to arrive. She continued to play basketball in college and was named MVP of the women's all collegiate team. She was a first round draft when she turned pro and is now the leading scorer in WNBA. Kaia Dickinson, who has already been nominated for Senate joined the renion. Her strong college career at Middlebury and great background in Political Science made her a perfect candidate. She really wants what is best for the people. In addition to politics, Kaia has continued to run. She completed both the New York and Boston Marathons while setting her Senatorial bid. Robbie Thornton made it just in time, but of course that's what he is good at! He is now a professional NASCAR driver. He took the checkered flag at Daytona, Talledaga and Atlanta. He leads the Nextel Cup Series. Despite his fame Robbie is still the one that we all loved. Around the resort that the reunion was held at you can see pictures of amazing art work. That art work was done by Crystal Eastman. Now she has her own business, and has been selling her gorgeous art work all over the world! Damian Adams and Nick Prescott have been getting around! Damian has been offered a job as manager of the Red Sox seeing how he has been to so many games! And Nick, well he has been busy too! He now has his own reality show "It's all about the Music". With his love of music, and concerts, he was offered a job on ABC. And every now and then he'll throw in a football tip seeing how he also loves football! Adrian Bernhard was offered a great job with the CIA because of his great ability with computers; he specializes in hacking and finding missing people now. Somehow the quiet ones always end up with great careers! Stacey Corey among the quiet ones, also did very well for herself. She arrived in a brand new 2018 sports car that isn't even on the market yet! She went to college for business management, and now is the head of a huge company that is involved with international trade. But don't let her classy business look fool you, she still gets out all the time to go fishing and camping. Natalie Yale arrived looking collected as usual. She is a wondeful reading teacher for children in both english and spanish. She married a wonderful man and has started a family. Megan Reynolds and Niomi Gould both started a non-profit organization to help children with special needs; so far they have raised over a million dollars! Sabina Smiechowski sent a letter in saying that she would be unable to attend, she is in the Bahamas liven it up! Michelle Gonthier arrived and then the party really started going! She loves to party, so naturally she made sure that everyone else was having a good time! The reunion turned out great; everyone has a good time, and many more memories were made.

Dad and I ave wathced you grow from an infant, depending solely on others, to an intelligent and beautiful woman, who is capable of taking care of herself. As you go through life's journey, remember that we will always be there for you, cheering from the sidelines and supporting your accomplishments, as you show the world the meaning of true beauty.

> BEAUTY by Angela Who is beautiful? Is it the one with curly hair The deep dark eyes, pretty face The slender body, is that fair? Or do you have to be big? Maybe beauty is small, Maybe darker skin is beautiful But then again, maybe light skin says it all. I say, we all are beautiful Because uniqueness is within, Inside is where the beauty lies GOD clothed is beneath the skin.

Love Always, Mom and Dad

Alyssa,

It has been a long journey from baby to adulthood, but we are so proud of the young woman you have become.

Now that you have learned to crawl and stand, its time to walk. Keep your head up, your shoulders back, eyes straight ahead and you can go any where!

Congratulations!

Congrats-Alyssa and the Class of 2007!!!

It seems like only yesterday I held you in my arms as a baby. From a Child to a beautiful adult we have watched you grow. there will always be a place in our hearts for you. As my godchild I will love you always. We always knew you would do great things. Life is tough but you have prepared yourself well.

Natalie, Congratulations on your graduation we have watched you grow into a very beautiful and special young woman we

love you very much.

Grandma, Poppy, and Dad

watched all of you meet challenges, overcome obstacles and become young adults. Many of you have been pals since preschool and will continue to be during your journey in life. As we thought about life and times of Alyssa Ray, we are not surprised that her

Words cannot express how proud we are of you and your classmates. We have

life, so far, has been full, well-rounded, and action-packed. We are happy to have memories from each and every part of it. We know she wouldn't change a thing- except a torn ACL in 9th grade. But even though you were handed this obstacle, it did not stop you. You never quit. We never known you to quit. Mom has said "Alyssa does just enough to get by and she likes it." Part of that is because she likes to do so much, all the time. the other part is she never has to BE THE BEST, but she DOES HER BEST each and every day, for each and every activity, sport, job, etc. This is who she is, truly amazing!!

This chapter is coming to an end, and a brand new one needs to be written. We are truly proud of you and know you will continue to make us and Westside proud as you have during the first chapter of your life.

We love you always and wish you nothing but the very best. We know you will reach for stars, continue to explore and do things YOUR WAY. We wouldn't want that to change. Just remember, you have never been alone on your journey and you never will be.

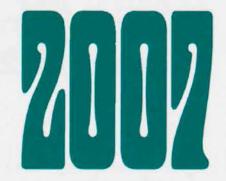

Our thanks to teachers, staff, coaches, mentors, friends, and family. You have helped make Alyssa who she will become needs to be written. We look forward to the next chapter!!!

Love- Mom, Dad, Aunt Betsy, Uncle Jamie, Michael, and Rachel
